

## Property Addition Evaluation Application Requirements

Warren County Health District

416 South East Street

Lebanon, OH 45036

(513) 695-1220

The *Property Addition Evaluation Application* is to be used for proposed structural additions to an existing structure serviced by a Household Sewage Treatment Systems and Small Flow On-Site Sewage Treatment Systems. Both will be referred to as sewage treatment systems (STS).

An evaluation of any proposed additions to an existing structure is necessary to ensure that the existing STS is capable of sustaining a change to the daily flow of sewage if flow is increased with the addition to the structure. This evaluation may result in an alteration to the STS being required if the addition to the structure is still requested.

The *Property Addition Evaluation Application* must be filled out completely. A site plan on at least 8 ½" x 11" paper must be attached that displays all of the following:

1. All property lines with the length of the property lines
2. All existing structures on the property, including dwellings, driveways, barns, garages, pools, and ponds
3. The distance of the primary structure from all property lines
4. The location of the existing sewage system including any septic tanks, pump stations, aerators, leaching lines, or other components of the system
5. The proposed area to be added onto the existing structure
6. Any areas where future structures are planned to be added to the property
7. The address of the property
8. The name of the owner of the property

An example of a site plan drawing is available to the right.

The corners of the proposed addition need to be staked and flagged. Any known locations of existing STS components must be staked and flagged. The vegetation on the lot must not exceed 18 inches in height.

Our office recommends that the applicant keeps a copy of the application for their personal records. The fee for the *Property Addition Evaluation Application* is \$85.00 and the fee must accompany the application for review.

The site will be reviewed within ten (10) business days of receipt of the completed application to this office. If there are problems with the application, the applicant will be contacted for clarification and follow up.

After the site review has been approved or disapproved you will receive a copy of a lot approval/disapproval letter. If the plan has been disapproved specific instructions will be provided for the next steps to have the plan approved.

If you have any questions related to this process please contact our office at 513-695-1220.
