Safe Sleep For Your Baby

Heart Tip: Always place your baby on his or her back to sleep, for naps and at night, to reduce the risk of SIDS.

Heart Tip: Use a firm sleep surface, covered by a fitted sheet, to reduce the risk of SIDS and other sleep-related causes of infant death.

Heart Tip: Your baby should not sleep in an adult bed, on a couch, or on a chair alone, with you, or with anyone else.

Heart Tip: Keep soft objects, toys, and loose bedding out of your baby’s sleep area to reduce the risk of SIDS and other sleep-related causes of infant death.

Heart Tip: To reduce the risk of SIDS, women should:
• Get regular health care during pregnancy, and
• Not drink alcohol, or use illegal drugs during pregnancy or after the baby is born.

Heart Tip: To reduce the risk of SIDS, do not smoke during pregnancy, and do not smoke or allow smoking around your baby.

Heart Tip: Breastfeed your baby to reduce the risk of SIDS.

Heart Tip: Offer a pacifier, not attached to a string, at nap and sleep time once breastfeeding is established.

Heart Tip: Do not let your baby get too hot during sleep.

Heart Tip: Follow health care provider guidance on your baby’s vaccines and regular health checkups.

Heart Tip: Avoid products that claim to reduce the risk of SIDS and other sleep-related causes of infant death.

Heart Tip: Do not use home heart or breathing monitors to reduce the risk of SIDS.

Heart Tip: Give your baby plenty of Tummy Time when he or she is awake and when someone is watching.

Remember Tummy Time!
Place babies on their stomachs when they are awake and when someone is watching. Tummy Time helps your baby’s head, neck, and shoulder muscles get stronger and helps to prevent flat spots on the head.

What Does a Safe Sleep Environment Look Like?
Reduce the Risk of Sudden Infant Death Syndrome (SIDS) and Other Sleep-Related Causes of Infant Death

Use a firm sleep surface, such as a mattress in a safety-approved* crib, covered by a fitted sheet.

Do not use pillows, blankets, sheepskins, or crib bumpers anywhere in your baby's sleep area.

Keep soft objects, toys, and loose bedding out of your baby's sleep area.

Do not smoke or let anyone smoke around your baby.

Make sure nothing covers the baby's head.

Always place your baby on his or her back to sleep, for naps and at night.

Dress your baby in light sleep clothing, such as a one-piece sleeper, and do not use a blanket.

Baby should not sleep in an adult bed, on a couch, or on a chair alone, with you, or with anyone else.
