WARREN COUNTY HEALTH DISTRICT HOMEOWNERS PERMIT FOR PLUMBING INSTALLATIONS

Section 1. PLUMBING FOR DWELLING

4.6 A homeowner may do plumbing work **within the home in which he lives or intends to live** by filling out an application for a plumbing permit. Such application to include isometric drawing, showing the drain, waste, and venting (pipe sizing and fixtures), indicating conformance to current Ohio Plumbing Code (OPC).

This homeowners permit is issued for the homeowner to **personally** install plumbing in the home in which he lives or intends to live and install according to current OPC.

The homeowner agrees to install the plumbing according to Chapters 4101:3-1-01 to 4101:3-15-01 (OPC) and states that he is familiar with the regulations and methods of installing the same.

Final approval of the installation must be secured prior to the occupancy of the dwelling.

As specified by regulation, if the job is not approved within two (2) years, the homeowner's permit shall expire. Following expiration, a new homeowner's permit will have to be obtained in order to maintain your permit in an active status and to obtain the necessary inspections for approval.

I agree to abide by the above rules and all regulations pertaining to this installation.
