Vaccination for Covid -19 in Warren County

The Warren County Health District (WCHD) is continuing its COVID-19 Vaccination Program for those individuals who are in Phase 1A as determined by the Ohio Department of Health. Phase 1A population groups are defined as healthcare providers and long-term care facility staff and residents who provide direct medical care.

As of today, January 15, 2021, we do not have additional availability of vaccine. The vaccine that has been received up to this point has been allocated for Phase 1A. These appointments are full.
